

Proven **millions**  
of times.

## Change without risk - Biresin<sup>®</sup> U1320

Change over now to the reliable and safe alternative from Sika and enjoy the advantages of our resin systems for core boxes:

- **Highly resistant to abrasion**  
up to 100,000 mouldings
- **Used millions of times**  
approved in a lot of foundries
- **Safe processing**  
high true-to-size properties,  
because of low shrinkage
- **Fast and inexpensive**  
short demoulding time, no brittleness phase

**NEW:**

Fast correction  
and repair with  
hardener Biresin<sup>®</sup> U1303  
• demoulding after 4 h
