## Discover new dimensions with SikaBlock® M80

- super light (density: only 0.08 kg/ltr.)
- very easily workable
- best price/performance ratio
- dimensions up to 2000 x 1000 x 600 mm  
less disturbing bonding lines
- extremely dense, fine surface
- good low-dust chip production
- no "sanding"
- very high heat resistance (> 120° C)

### Especially suitable for:

- design and styling models
- substructures for clay / model pastes
- simple laminating moulds
- form studies and test milling
- negative moulds for netsize casting
- moulds for gravity-based deep-drawing
